Upper School Math Teacher

Bishop Seabury Academy is seeking a dynamic Upper School Math Teacher for the 2021-22 academic year. Successful candidates should be passionate about teaching math and eager to work with young people, have genuine concern and ability to differentiate instruction and to help students master the subject matter despite different skill levels, be confident integrating technology in the classroom and with distance learning, prioritize positive collegial interactions and collaborative relationships with other teachers, and possess excellent communication and organizational skills.

Candidates should have a bachelor's degree in math and five years or more of teaching experience. Preferred candidates will have experience teaching in independent schools.

Applicants should email a resume, cover letter, and reference list with contact information to Don Schawang at don@seaburyacademy.org. Applications will be reviewed as they are received. No phone inquiries, please.
